

Psychiatric–Mental Health Nursing Exam Review

Course Description

This seminar is designed to provide the healthcare provider with a comprehensive review of Psychiatric–Mental Health Nursing Principles. The principle objectives of the course include enhancing professional nursing practice in Psychiatric–Mental Health Nursing as well as providing an outline for nurses preparing for the Psychiatric–Mental Health Nursing Exam. The course follows the outline and core curriculum recommended by the American Nurses Credentialing Center (ANCC). Case presentations will be presented to enhance critical-thinking skills and enhance knowledge of evidence-based practice in psychiatric settings.

Program Learning Outcomes

This program prepares the learner to:

- Pass the ANCC board examination.

Agenda

Sign-in begins at 7:30 am. Each day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.
