

Course Description

This program is designed for BMT oncology nurses seeking a review course in preparation for the ONCC® Blood and Marrow Transplant Certified Nurse (BMTCN®) Exam. The review will focus on the following major concepts from the 2018 test content outline: foundations of transplant, preparative regimens, cellular collection and infusion, early and late transplant management and education, quality of life and professional performance. This is not an introductory course to transplantation, but rather a comprehensive review of BMT oncology nursing practice.

Program Learning Outcomes

This program prepares the learner to:

- Discuss and practice test-taking skills and strategies.
- Review the basic concepts for pre- and post-transplantation.
- Identify the nurse's role in the management and care of BMT patients across the transplant trajectory.
- Discuss the clinical presentation and evidence-based interventions of common issues in BMT.
- Identify key survivorship issues in BMT and professional oncology practice.

Agenda

Sign-in begins at 7:30 am. The day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.

8:00 am to 4:30 pm

0800	Introduction Welcome and Introduction Eligibility Application and Testing Study Resources Test-Taking Tips
