

Course Description

This course is a review of flight and transport nursing designed to assist the participant to be successful in obtaining CFRN certification. The course offers lectures, graphics, videos and practice questions in all the areas outlined by the CFRN Blueprint. This review will provide not only a knowledge base for successfully completing the exam, but also a foundation for further study as the participant works towards certification as a flight nurse.

Key Learning Outcome

- After completing the program, 80% of participants will report an increase in knowledge and confidence necessary to pass the certification exam.

Program Objectives

This program prepares the learner to:

- Describe the CFRN Exam, test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.

Agenda

Sign-in begins at 7:30 am. Each day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.
