

### Course Description

This course is designed for nurses working in the perianesthesia setting who plan to take the CPAN Exam. The course will focus on core concepts defined by ASPAN™ for caring for all populations.

### Key Learning Outcome

- After completing the program, 80% of participants will report an increase in knowledge and confidence necessary to pass the certification exam.

### Program Objectives

*This program prepares the learner to:*

- Review key concepts and topics related to the APBANC test blueprint for a candidate to successfully challenge the CPAN Exam.
- Review patient clinical data with a focus on perianesthesia complications, anesthesia techniques and drug therapy and perianesthesia medications.
- Examine practice standards, legal and regulatory requirements related to perianesthesia nursing.
- Discuss test-taking strategies and critical thinking components for a successful CPAN Exam.

### Agenda

*Sign-in begins at 7:30 am.* Each day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.

#### Day 1, 8:00 am to 4:00 pm
