

Certified Case Manager Exam Review

Course Description

This course is designed to provide the practicing case manager with information to assist him or her in preparing for the CCM Exam and can serve as a review for the ACM and ANCC certifications. The content is also appropriate for those who are seeking a basic course in case management practice.

The content of the course is based on feedback from course attendees as well as CCMC®'s list of content areas and is updated every 4 months.

The course includes:

- A 300-page course manual, covering the content of the course plus resources for further self-study
- Overview of the CCM process and exam
- Intensives in core concepts, public benefits and workers' compensation
- 130+ sample exam questions
- Self-assessment design

Program Learning Outcomes

This program prepares the learner to:

- Obtain knowledge of concepts related to case management practice in addition to the essential knowledge areas for case management practice as identified by the CCM Commission and national standards.
- Describe the process for the CCM credential.
- Gain insight and resources for any further self-study needs for the CCM Exam.
