Hospice and Palliative Care Certification Review Course

Course Description
The purpose of this two-day course is to enable the nurse to successfully pass the examination to be certified in hospice and palliative care. The information presented is applicable to nurses working with adults in diverse settings since patients with end-stage diseases reside either temporarily or permanently in multiple arenas. The dying process is included as it is imperative for nurses to understand and provide comfort and knowledge to patients and families.

Program Learning Outcomes
This program prepares the learner to:
- Integrate and apply the knowledge, skills and judgment to practice effectively and ethically in designated role of caring for seriously ill patients.
- Apply the specific scope and standards of palliative care principles to patients based on their goals of care in serious illness.
- Articulate the compassion, sensitivity, assessment and communication skills required for palliative nursing.
- Acquire the knowledge and skills necessary to successfully obtain certification in this specialty.
- Remain current in the practice of palliative care as this specialty evolves.

Agenda
Sign-in begins at 7:30 am. Each day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.

Day 1, 8:00 am to 4:00 pm
