

Low Risk Neonatal Nursing Exam Review

Course Description

This course is designed for nurses who wish to take the NCC Certification Examination to obtain RNC-LRN designation. The course will focus on core concepts that are essential for caring for low-risk newborns. Course content has been designed specifically around NCC test content outlines and competency statements. Preparation is recommended prior to participation in this course. Recommended study resources, exam outlines and associated competencies can be found online at www.nccwebsite.org.

Key Learning Outcome

- After completing the program, 80% of participants will report an increase in knowledge and confidence necessary to pass the certification exam.

Program Objectives

This program prepares the learner to:

- Describe the Low Risk Neonatal Nursing Exam, test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.

Agenda

Sign-in begins at 7:30 am. Each day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.
