

Course Description

This program is designed for oncology nurses seeking a general oncology review in preparation for the ONCC® OCN Exam. We will focus on the following categories from the 2018 OCN blueprint: cancer continuum, oncology nursing practice, cancer treatment modalities, symptom management, palliative care, oncologic emergencies and psychosocial dimensions of care. This is not meant to be an introductory course, but rather a comprehensive review of basic oncology nursing practice.

Program Learning Outcomes

This program prepares the learner to:

- Demonstrate preparedness to challenge the OCN Exam.
- Identify personal learning gaps requiring attention prior to challenging the OCN Exam.
- Discuss and practice test-taking skills and strategies.
- Review the assessment and diagnostic findings associated with oncology conditions and diagnoses.
- Identify the nurse's role in the management and care of patients across the cancer trajectory.
- Discuss the clinical presentation and evidence-based intervention of common oncologic emergencies.
- Identify models of survivorship in oncology practice.

Agenda

Sign-in begins at 7:30 am. Each day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.

Day 1, 8:00 am to 4:30 pm
