Rapid Response: When Minutes Count

Course Description
This comprehensive two-day course will provide the bedside nurse and members of the Rapid Response Team with the tools necessary to recognize clinical deterioration and avert failure to rescue. The course will begin with an overview of the Rapid Response System (RRS) and the subsequent development of Rapid Response Teams (RRTs). This is followed by an overview of the roles for the bedside caregiver and members of the RRT. Detailed scenarios will be presented that will challenge the attendee to critically think through the process of assessment, identification of the problem and then strategies for management.

Program Learning Outcomes
*This program prepares the learner to:*
- Identify early warning signs of clinical deterioration.
- List the indicators for the implementation of the Rapid Response System.
- List appropriate assessment and differentials for selected clinical crises.
- Discuss current evidence-based management strategies.
- Evaluate current research results for the Rapid Response System.

Agenda
*Sign-in begins at 7:30 am. Each day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.*

**Day 1, 8:00 am to 4:30 pm**

Agenda

Day 2, 8:00 am to 4:00 pm

0800  My Patient Has a Mental Status Change
   Assessment/Differential: Labs, ABC, CT Scan | Stroke: Prepare for the Stroke Team | Alcohol Withdrawal Syndrome | Pulmonary Compromise: Ventilatory Failure | Endocrine Emergencies

0930  Break

0945  My Patient Has a Mental Status Change (cont.)

1015  My Patient Has Abdominal Pain
   Assessment/Differential: KUB, Diet, Labs | GI Bleeding, Ileus, Nausea, Vomiting, Diarrhea | Acute Abdomen, Surgical Emergency, Acute Pancreatitis | Bariatric Postoperative Complications

1215  Lunch

1315  My Patient Has Hypotension

1445  Break

1500  My Patient Has Hypotension (cont.)

1600  Adjourn
